SKILLS

Technical Skills

- Programming Language - CPP, Java
- Frontend - HTML, CSS, JavaScript, JSP
- Backend - Servlets, JSP
- Database - MySQL
- GUI Development , JDBC
- CS Fundamentals - DBMS, OOPS, SQL, CNS
- Platforms - Windows, VS Code, GitHub, Linux , Eclipse (Dynamic Web Project)
- Framework-Spring Boot(MVC),Spring Data JPA

Soft Skills

- Problem-Solving (DSA)
- Fast Learner and Active Listening
- Team Collaboration
- Time Management
- Creativity and Innovation
- Video Editing

EDUCATION

Bachelor of Engineering- Electronics & Telecommunication Engineering

Smt. Kashibai Navale College of Engineering, Pune
11/2022 | Pune

Higher Secondary Certificate

Dayanand college of Science, Latur
2022 | Latur
68%

Secondary School Certificate

Kilbil National School, Ahmedpur
2020 | Ahmedpur
87.00%

CERTIFICATES

N infinity Info Solutions

- CPP,
- Core Java
- Advanced Java
- Full Stack Development

PROFESSIONAL EXPERIENCE

Java Intern (Internship)

N Infinity Info Solutions

01/2025 – 03/2025 | Pune, India

- Developed and integrated MySQL databases with JDBC in web-centric applications.
- Designed and implemented backend logic for dynamic web applications.
- Wrote optimized SQL queries for data retrieval and manipulation.
- Worked with Servlets, JSP, and Java-based frameworks for web development

PROJECTS

EduTrackPlus- A Centralized System for Academic and Financial Management

02/2025 – 03/2025

Edu TrackPlus is a web-based ERP system designed to manage various academic and financial operations of an institute. It streamlines student records, attendance, fee management, and staff tasks, ensuring smooth administration and real-time data access. Tech Stack (Using Advanced Java Tools)-

- Frontend: HTML, CSS, JavaScript, JSP
- Backend: Servlets, JSP
- Database: MySQL

Insight360-Advance Enterprise Intelligence & Analytics Terminal

Spring Boot-driven Terminal for Real-Time Monitoring & Automated Workflow Analytics

- Developed a high-fidelity intelligence dashboard using Spring Boot to monitor complex, real-time data streams and system workflows.
- Designed a specialized "Command Center" interface with an Inverse-Contrast UI (Ghost-White & Midnight-Navy) to optimize data readability for executive-level decision-making.
- Implemented dynamic visualization components such as Radial Sync Gauges and Live Activity Streams using Thymeleaf and custom CSS3 animations.
- Architected a modular system to track multi-departmental performance, focusing on reducing visual fatigue and improving data-access efficiency.
